

The Scratch Jr workspace displays a space-themed scene. In the center, a large grey moon with dark spots is on a grey surface. Five astronauts in white suits are standing in a line on the moon. To the right, a blue and green Earth is visible in the dark purple space, which is filled with small white stars and a few larger yellow stars. The top toolbar contains icons for home, camera, gallery, ABC, undo, and a flag. On the left, a palette shows 'Earth', two 'Star' blocks, and a 'Star' block with a 'no touch' icon. A script area on the right shows a 'Star' block with a plus sign. The bottom toolbar includes icons for chat, right arrow, person, speaker, broadcast, red flag, and various movement and control blocks.

A sequence of five Scratch Jr script blocks: a yellow flag block, a clock block with the number '5' below it, two pink person blocks, and a red undo block.
