

The image shows the Scratch Jr. interface for a project titled "Underwater Race (Advanced)". The stage is an underwater scene with a blue background, sun rays, and various sea creatures: a seahorse, a jellyfish, a starfish, and a colorful fish. The left sidebar contains asset categories: Starfish, Character, Seahorse, and a highlighted Seahorse asset. The right sidebar shows two preview thumbnails labeled 1 and 2, and a plus sign to add more assets. The bottom toolbar contains various editing tools like speech, navigation, volume, and undo/redo. The script area at the bottom features a sequence of blocks for a seahorse character:

- Start with a seahorse character icon.
- Block 1: Move to flag (1)
- Block 2: Wait (10)
- Block 3: Move to flag (10)
- Block 4: Turn to face me (10)
- Block 5: Walk (3)
- Block 6: Move to flag (8)
- Block 7: Walk (5)

A pink "Person" block is also visible in the bottom right corner.
